

Highams Park School, London

Community Update

**+ BOWMER
KIRKLAND**

Welcome to the latest newsletter from Bowmer + Kirkland, regarding construction of the replacement school building at the existing Highams Park School.

Project Information

Following the successful completion of the temporary classrooms on the existing playing field, we have now moved onto the main build phase of works. We have erected the perimeter safety hoarding and installed our site welfare facilities.

Two of the existing school blocks have been successfully demolished and we will now move on to the canteen area. We were able to complete demolition of the block adjacent to Handsworth Primary School during the summer break and we're grateful to the school for their assistance in this.

Over the coming weeks we will continue with demolition works and start installing a ground source heat pump in the existing playground area, which is now part of the construction site. We are monitoring dust, noise and vibration levels throughout these works to help us minimise our impact on the school and our surrounding neighbours.

All construction related deliveries are restricted to between 09:30 – 15:00 and come in via our site entrance on Handsworth Avenue which is manned at all times.

Site working hours are Monday - Friday 08:00 – 18:00 and when required, Saturday 09:00 – 13:00.

If you have any questions or comments please contact our site manager. We will also be posting community updates on our project website below.

Considerate Constructors Scheme Code of Practice

**CONTRACTOR
AND SUPPLIER
PARTNER**

**CONSIDERATE
CONSTRUCTORS
SCHEME**

Organisations registered with the Considerate Constructors Scheme make a commitment to conform to the Code of Considerate Practice.

Through consideration to community engagement, the environment and workforce wellbeing they strive to improve the impact of the construction industry and leave a positive legacy through the implementation of best practice.

The Code of Considerate Practice defines the fundamental expectations for registration with the Scheme. The Code applies equally to all organisations registered with the Scheme, regardless of size, type or location.

Respecting the Community

Constructors must manage their impact on their neighbours and the public to support a positive experience, by:

- Ensuring courteous and respectful language and appropriate behaviour in and around the construction activity.
- Providing a safer environment, preventing unnecessary disturbance, and reducing nuisance for the community from their activities.
- Proactively maintaining effective engagement with the community to deliver meaningful positive impacts.

Care for the Environment

Constructors must minimise their impact and enhance the natural environment, by:

- Prioritising environmental issues to protect the natural environment and minimising negative impacts.
- Optimising the use of resources, including minimising carbon throughout the value chain.
- Engaging with the community to improve the local environment in a meaningful way.

Value their Workforce

Constructors must create a supportive, inclusive, and healthy workplace, by:

- Actively encouraging and supporting an inclusive and diverse workplace.
- Proactively supporting safe working, mental and physical wellbeing at work.
- Providing workplaces that are, well maintained, clean and secure from physical and biological hazards.
